Pepper and Pear Instructional Design, LLC

Instructional Systems Designer & Owner

Albuquerque, NM | Summer 2020

In the spring of 2020, as schools were struggling with workable hybrid solutions in the COVID era, I began to volunteer my assistance as a distance learning professional. One school requested a summer lecture series to help their instructors with conceptualizing, organizing and building online and hybrid learning. Pepper and Pear Instructional Design, LLC was founded to build that curriculum.

Summer Session Series:

1. Sequencing So You Stay Sane
2. Using Zoom and Video Well
3. Discussion Boards
4. Selective Assessment Methods
5. Resources in Blended Learning
6. Templates and Learning Objects
7. Ack!

This curriculum, with permission, was then offered for free to the local public school system, which used various techniques and recommendations at their discretion.

Sylvain Analytics, Incorporated

Instructional Designer

Albuquerque, NM | October 2016 – May 2018

Sylvain Analytics brings a team of multi-disciplined and skilled strategic planners, program managers, engineers, software developers and quality assurance professionals to provide Strategic Planning and Execution, Mobile App Development, Lean Six Sigma Training, Agile Development, and Performance Improvement for both the Federal and commercial sectors.

Contract: United States Coast Guard Watch Qualification Standards, Basic Damage Control Update
Instructional Design Components: Coordinated subject matter experts and contract based content for analysis and review, Storyboards, Organized curriculum, Conducted resource review and Completed Documentation Matrix; Developed assessments such as Knowledge Checks, Test Questions, Sign Offs, and Feedback Processes; Supported Development Team
